BY GEO. B. PRENTICE

You once again I've seen thee, And my very thought is thine, Ay, I kneel to thee in worship As to an idol-shrine.

In my spirit's silent chambers, Where hope may never be, One lonely light is burning-'Tis hely love of thee.

I see thee-oh, I see thee In the shadows on the river,

I see the in the moon's sweet beams That on the bright lake quiver; I see thee in the mists that move Like spectres o'er the streams,

And at Midnight deep I see thee In the shadow world of dreams. I see thee-oh, I see thee In the gende flowers of spring,

And in the tint the rainbow wears Upon its fleeting wing; I see thee in the sunset hues That gush along the west, And I see the in the dew-drop

That gem's the ros i's breast.

I hear thee-oh, I hear thee In the murmuring of the waves, And in the soft and twilight gush Of fountains from their caves; I hear thy voice's music

In each sound that wanders by-In the cadence of the night bird, And the wind's mysterious sigh. I hear thee-oh, I hear thee

In the chime of evening bells, And in the tone that o'er the deep At solemn twilight swells; I hear thee in the forest-lyres Swept by the breath of even, And in the low, deep spirit voice

That tells the soul of heaven. I love thee-oh, I love thee-There's naught in the bright blue skies No lovely thing of earth but brings Thy sweet form to my eyes;

I love thee, and there's not a sound, Asione to my spirit dear, A breath from nature's slip, but gives Thy voice to my ravished car.

I love thee-oh, I love thee-Thou art in the darkest hour To my soul a sar, a fount, a bird, A music-tone, a flower; I love thee, and thy dear thought thrills Each fibre of my frame, Like Heaven's own lightning, and my heart In each throb calls thy name.

I love ther -- oh, I love thee, And I would these words were borne To thee on every hely breeze Of eventide and morn; I love thee, and I would these words

Were written on the sky, And on each star and flower and leaf That greet my gentle eye,

Prom man's right side a rib was taken to form the woman, and never was there seen a rib quite straight. It breaks, but bends not. INTERESTINF CORRESPONDENCE.—Dr. William Y. Banks, of Xenia, Ohio, a highly respectable druggist in that delightful village, has informed us that the sale of Wistar's Balsam of Wild Cherry is unparalleled. The demand for it is so eager, that he can scarcely keep himself supplied with it.— He has had in his store medicines for lung affec-tions. Some of these were esteemed good, and some gave temporary refiel. But since he has had Wistar's Balsam of Wild herry, a number of the most serious cases were completely cured by its use. The attack was truly horrifying to me; five of my family, my brothers and sisters had died of Consumption. I was afflicted with nearly all the worst features of the disease; I had a distressing cough, and expectorated a great deal of blood, heetic feaer, severe pains in the side and chest, cold chills, alternating with flushes of heat

I was under the care of a skilled physician, from the time I was taken sick until about six friends considering my case hopeless, of at least beyond the reach of my physician's skill, advised the use of Wistar's Balsam of Wild Cherry.— Without my knowledge, my father procured it, and commenced using it. I was able to be out and oversee my business and labor, which I still continue to do. I have taken four bottles of the mecine, and now consider myself well. I make this statement to induce others that are afflicted as I have been, to make trial of Wistar's Balsam of Wild Cherry, which remedy has, under the blessing of Providence restored my health.

A Derangement of the Nervous System.

(G-In NERVOUS COMPLAINTS, Drugs and Medicines ingrease 'the disease, for they weaken the vital energies of the already protrated system; while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the axhausted patient and weakened sufferer is restored to former health, strength the great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists in the fact that they arrest and cure disease by eucuard application, in place of the usual mode of drugging and phaicking the patient, till exhausted Nature sinks hopelessly under the indiction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest rightly under any circumstances. Since their introduction in the United States, only three years since, more than

75,000 Persons including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nerveus Complaints, have been

ENTIRILY AND PERMANENTLY CURED, when all hope of relief had been given up, and every thingelse been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization DYSPEISA, or any other Chronic er Norvous Disorder for ordinary cases, stimulants are taken, which, by their action of the nerves and muscles of the stomach, afford temporary in the first which leaves the patient in a lower state, and with it jured faculties, after the action thus excited has cassed. Now compare this with the effect resulting from the application of the GALVANIC BELT has a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed he ashort period the insensible perspiration will act on the pentitive element of the Belt, thereby causing a Galvanic circulation witch will pass on to the negative, and then belt again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO FRADICATE THE DISEASE OF YEARS.

New Jersey, of distinguished attainments and exalted r what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply i what has deen the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had been suffering from Dyspensia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. About fouriers years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rhenmatism, which for year after year, caused me indescribable anguish. Farther: in the winder of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate-suspension of my pastoral labors. My nervous system was necestroroughly prestrated, and as my Bronchitis became worse, so sho did my Dyspepsia and Rheumatic affection—thus eviscing that these disorders were connected with each other except the medium of the Nervous system. In the whole planmacopain there seemed to be no remedial agant which could reach and recuperate my Nervous System; every hing that I had tried for this purpose had complicitly falled. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIG FLUID. This was in June, 1848. To my orant astonias ments, in two days my Dispersia and deer; in an and mark I since compress a single approach of the approximation of the experiment.

I have recommended the BELT and FLUID to many when

sults of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, were harr samples, I saliave, in aven; I am, dear sir, very respectfully yours, ROBERT W. LANDIE.

DR. CHRISTIE'S GALVANIC NECKLACE is used for all complaints affecting the Throat or Heed, such as Bronchitis, Inflammation of the Throat, Nervous and Sich Hesdache, Dizzleess of the Head. Neursleis in the Face, Bus-sing or Roaring in the Ears, Desfuess, which is generally Nervous, and that distressing complaint, called Tic Dolorsux.

The following is an extract from a letter lately received from a distinguished physician in the State of Virginia:

"A. H. CHRISTIE, M. D.—Deer Str: One of my patients, unknown to me, obtained your Galesnie Belt one Receives with the Magnetic Fluid, for a serious affection of Deest was that of a lady whose Nervous system was much disordered, and her general health poor. Much was done previously to the application of the Belt, but with very little success, and I feel it only right to tall you, the since she commenced wearing the Belt and using the Klaid but a few weeks ago, she has ENTIRELY RECOVERED HER HERARING, and her general health is better than is several years."

DR. CHRISTIE'S GALVANIC BRACELETS Are found of vast service in cases of Convulsions or Fits Spannodic Complaints, and general Nervous Affections of the Head and upper extremities. Also in Falsy and Farslysis, and all diseases caused by a deficiency of power or Nervous Energy in the limbs or other organs of the body.

Tic Doloreux and Neuralgia. These dreadful and agonizing complaints are immedi-ucly relieved by the application of the Garranto Belt, Nacalack and Fluin. The Belt diffuses the Electricity through the system; the Necklace has a local effect, and the Fluid acts directly upon the effected nerves. In these dis-tressing afflictions the application NEVER FAILS.
